MINISTRY OF COMMERCE

PUBLIC NOTICE

IMPORT TRADE CONTROL

New Delhi, the 1st February 1967

SUBJECT.—*Import of raw materials, components and spares by actual users viz., manufacturers of radio receivers/transistor radio receivers in the small scale sector for the period April 1966—March 1967.*

No. 17-ITC(PN)/67.—Attention is invited to Ministry of Commerce Public Notice No. 84-(ITC)/(PN)/66, dated the 23rd June, 1966 according to which import licences for raw materials, components and spares for the period April 1966—March 1967 are to be issued to the existing units in the small scale sector for the same items for which such units had obtained import licences for the period April 1964—March 1965 or April 1965—March 1966.

2. On a review of the position, it has been decided that in respect of licences issued or to be issued to SSI units for April 1966—March 1967 period for the import of components of radio receivers or components of transistor radio receivers, the licensee will be allowed to import the items covered by his licence during its period of validity in the manner indicated below:—

(a) Upto 31st March, 1967 shipment of any of the items covered by the licence will be allowed in the normal way.

(b) After 31st March, 1967, it will not be open to a licensee to import any of the items not appearing in the Annexure to Part 'A' of Section II of the Import Trade Control Policy Book (Red Book) for the period April 1966—March 1967, as amended, for a value exceeding 5 per cent of the face value of the licence, even if such items are covered by the licence. There will, however, be no face value restriction for the import of items covered by the licence which are included in the said Annexure to Part 'A'.

3. It has also been decided that small scale units holding import licences for components of radio receivers or components of transistor radio receivers for the period April 1966—March 1967 may also be allowed to utilise such licences for import of raw materials required for the manufacture of components of radio receivers/components of transistor radio receivers. The imported raw materials will have to be placed by them at the disposal of the indigenous manufacturers of components of radio receivers/components of transistor radio receivers for use in the manufacture of components on behalf of the licensees. The licensees desirous of availing themselves of this facility should apply to the licensing authorities for a suitable endorsement on their licences to this effect. Such requests should also be accompanied with a letter from an indigenous manufacturer of components to the effect that he would be in a position to undertake the manufacture of components out of the imported raw materials placed at his disposal. The items of raw materials to be allowed for import will be those which are permissible to the manufacturers of components of radio receivers/components of transistor radio receivers during the period April 1966—March 1967.

P. D. KASBEKAR,
Chief Controller of Imports and Exports.
